- Computer developer with a solid academic background.
- Seeking to expand my knowledge.
- Enthusiastic and committed to contribute in a development team.

Basic data

- **Age:** 23
- **Languages:** Spanish, English (C1)
- **Location:** Córdoba, Spain

Profile

As a software developer, I have completed two High-level Vocational Training Cycles in software development – one in Multiplatform Application Development and another in Web Application Development. I also possess a high school diploma, completed three courses via freeCodeCamp.org, and carry a C1 English certification from Cambridge. I gained experience from three-month internships at two different companies and I am eager to contribute and continue learning in a professional environment.
